Yaswanth Reddy Gaddam

AI & Data Engineer
creating smarter solutions through data and machine intelligence

Schillerstraße, Berlin | Born 13/12/2001 | +49 155 10589683
gyaswanthreddygaddam1312@gmail.com |
I am a Indian citizen, I am eligible to work 140 full days or 280 half days per year. I am available immediately.

SUMMARY

A motivated and adaptable Computer Science and Engineering graduate specializing in Data Science, with hands-on experience in full-stack development, data analysis, machine learning, and parallel & distributed computing (CUDA, OpenMP, Apache Spark). Skilled in Python, Power BI, and MySQL. Passionate about data-driven projects.

TECHNICAL SKILLS

Programming: Python, C, SQL, HTML/CSS
Data & BI: Power BI, DAX, Pandas, NumPy
ML / AI: Machine Learning, Scikit-learn
HPC: CUDA, OpenMP, Apache Spark
Databases: MySQL, REST APIs

WORK EXPERIENCE

10/2024 – 04/2025 -- Intern Full Stack Python Development
Q Edge Technologies Pvt. Ltd., Hyderabad, India

• Completed a 6-month intensive internship in backend and frontend development using Python, HTML, CSS, and MySQL.
• Developed multiple full-stack web applications integrating REST APIs, responsive frontends, and database management.
• Optimized application performance and delivered scalable solutions within the development team.

PROJECTS

Real-Time Fraud Detection System | Parallel & Distributed Computing Technologies:

- Python, CUDA, OpenMP, Apache Spark Designed a fraud detection algorithm using Euclidean distance similarity between transactions.
- Processed 5 million transaction records with 30 features per record.
- Implemented and benchmarked four computing models: sequential CPU baseline, OpenMP (shared memory), CUDA GPU acceleration, and Apache Spark (distributed processing).
- Achieved significant performance improvements through parallelization; evaluated execution time and scalability across all architectures

IPL Analytics Dashboard | Power BI Technologies:

- Power BI, DAX, Data Modeling Developed an interactive, multi-page dashboard analyzing Indian Premier League data across multiple seasons.
- Performed data cleaning, transformation, and integration of match, player, and performance statistics.
- Generated insights on team performance, top scorers, and seasonal comparisons using DAX and custom visuals

Personalized Travel Planning System | Python Technologies:

Python, Recommendation Algorithms

- Built a system to create custom travel itineraries based on user preferences and constraints.
- Implemented recommendation algorithms considering budget, preferred activities, and location data

EDUCATION

10/2025 – 09/2027	**Master, Data Science** XU Exponential University of Applied Sciences, Potsdam, Germany
07/2020 –07/ 2024	**Bachelor ,Computer Science & Engineering (Data Science)** Malla Reddy College of Engineering, Hyderabad, India

HOBBIES

coding | Riding Bikes | Watching Movies

LANGUAGE SKILLS

English (B2) | Telugu (Mother tongue) | German (A1, currently learning)
